## GREENVILLE.

**A Manipulator of Horse-Flesh Captured.**

Special to the Gazette.

GREENVILLE, TEX., July 10.—Last night Bob Crawford, charged with horse-stealing, was captured ten miles south of Greenville by Sheriff Hale and Deputy Obe Chaffin, and was jailed here to-day. A few nights ago he was spotted by the officers, but gave them the dodge, though fired at several times. He reluctantly held up last night at the third order from the officers.

Mr. Richard Graham, who, with Mr. John Ellis, had the contract for building the new court-house here, died last night of consumption and was buried this afternoon.

## PARIS.

**A Prisoner Slips Through His Shackles Into Arkansas.**

Special to the Gazette.

PARIS, TEX., July 10.—John Burris, deputy sheriff, returned yesterday from a trip to Dallas county, where he had gone to arrest John Alexander for murder committed in 1883. He was successful in finding his man, made the arrest and proceeded with his prisoner to Nashville, the nearest railroad point, where he had to stay all night. During the night Alexander managed by some means to slip the shackles by which he was fastened to Burris and made his escape, going to the wilds of Arkansas. Alexander has been regarded as a good citizen by his neighbors, having held the position of United States marshal. Burris is determined to get his man if it takes him all summer.

A debating club, composed of a number of our young men, was organized last night at Library hall. The next meeting will take place on Tuesday, the 14th.

Mr. Walker, employed at Mr. Joe Ballinger's hay farm, had his ankle badly injured yesterday.

## HOT SPRINGS.

**A Vein of Lignite Coal Discovered Near the City.**

Special to the Gazette.

HOT SPRINGS, ARK., July 10.—Considerable interest is manifested in this city over the discovery in the suburbs of a vein of brown lignite coal. Experts pronounce the quality of the coal as excellent, and as being of the same character as that of the celebrated coal near Camden, which mines sold recently for \$50,000. The vein in this city was discovered by workmen digging a well and will be developed by the owner.

Advices from the Bear Mountain mines near the city are most encouraging. The first runs were made yesterday by the new smelter and five pounds of pure metal to 100 pounds of ore were obtained. The percentage of gold and silver is not definitely known. The camp is wild with enthusiasm.

A large lumber-mill near this city, belonging to Sidney Brown, was destroyed by fire yesterday. The loss is \$3,000.

W. D. Phillips, a stylish-looking young man who claims to hail from Philadelphia, was arrested and jailed to-day on a charge of obtaining goods on false pretenses.

## LONGVIEW.

**A Bull Takes Possession of a Saloon.**

Correspondence of the Gazette.

LONGVIEW, TEX., July 9.—Longview has no china shop, or perhaps it would have been badly used yesterday, but it has a saloon—the City saloon—and into that Joe Hayler's bellicose bull burst, scattering confusion and dismay—and other things, too numerous to mention—in a manner contrary to the peace and dignity of any well-ordered saloon. Dick Hillard, the bartender, essayed to oppose the further onslaught of the brute, but Dick is very small for his age, his avocation being only 107, and the tail of that terrible Taurus heaving its back in fury, its head low, banging to the floor, and the belligerent bellows belching from its mouth as it pawed the imaginary dirt, caused him to succumb to the inevitable, and the bull held full sway until its owner succeeded in capturing him. Such occurrences call loudly for prohibition.

Longview and Gregg county seem to have an unsavory expectancy for the near future. There are three applicants for the office of county judge, soon to be made vacant by the resignation of the present incumbent, Judge John T. Kilgore, who has been appointed postmaster at this place. The applicants are Col. E. B. Bagland, Evans S. Terry, Esq., editor of the New Era, and W. W. Lewis, the latter colored. There are three colored county commissioners, and it is strongly suggestive that Mr. Lewis will be the next county judge.

"Was ever woman in this humor wooed? Was ever woman in this humor won?"

Of course not. Don't try to make love to a woman who is all out of sorts with dyspepsia or nervous prostration. First make her a present of a bottle of Brown's Iron Bitters. Then when her digestive apparatus is in order, and her nerves toned up, go and see her. Mr. Seal of Clinton, La., says: "My health has been greatly improved by using Brown's Iron Bitters." It cures dyspepsia, indigestion, etc.

## TERRELL.

**A Runaway Match—The Summer Normal School.**

Special to the Gazette.

TERRELL, TEX., July 10.—Yesterday morning there departed from this place a couple of youths seated in a vehicle with two wheels, drawn by a single horse. The runaways were Albert Aikin and Miss Calbreith. In due time they landed at Kaufman and called on Ab Self, the county clerk, for a license. He asked the pertinent question if she was

"eighteen." Aikin replied, "Yes," but the cruel fellow, not content with this, required her to swear to this fact. This done, the happy pair paid him with "good for evil," by inviting him and his deputy to go witness the ceremony. They called on Rev. O. P. Thomas and repaired to the Gibbs hotel, where these two, in the presence of the other three, were united. They took the Texas Trunk for Dallas.

The summer normal school opened on the 8th with twenty-eight teachers present, under Prof. G. W. Groves of Dallas as principal, and now has forty in regular attendance.

Furniture is arriving for the asylum, and the management is actively engaged preparing for the reception of patients.

## MARSHALL.

**An Escaped Criminal Captured—Other Notes.**

Special to the Gazette.

MARSHALL, TEX., July 10.—Levi Moore, colored, an escaped murderer from this county, was captured at Mansfield, La., a day or two since. He was out under bond, but left the county.

Four boys about fifteen to sixteen years of age, and all of respectable families, were arrested yesterday, charged with stealing watermelons from a patch in the suburbs. Two of them were tried by Justice Case yesterday and sent to jail. The other two had their cases postponed, but failed to show up at the appointed time.

A Mr. Watts of Big Spring has been appointed master mechanic of the Texas & Pacific shops here, vice J. K. Lape resigned. Mr. Lape was very popular here.

We have another iron foundry here now. Mr. McRobinson of Queen City is the proprietor.

## AUSTIN.

**A Warning to the Purchasers of School Lands—Capital Cullings.**

Special to the Gazette.

AUSTIN, TEX., July 10.—The purchasers of school land under the act of 1883, which includes all sales by the land board, are notified that a failure to pay on the 1st of August for the preceding year will work a forfeiture without any judicial proceeding. In such cases the land will be immediately placed on the market again. The next regular meeting of the land board will be held the first Tuesday in August.

Maj.-Gen. Claiborne sent in a report of the Lampasas drill to-day. It is a mammoth document.

The Austin Typographical union has petitioned the governor for the pardon of A. L. Cashell, an old newspaper man, who is under sentence of twelve months in the county jail for stealing books from the law office of Smith & Trigg.

Chartered: The Herald Printing and Publishing company of Dallas, capital \$150,000, incorporators, Messrs. Plotts, Elliott & Hall.

## A Great Discovery.

Mr. Wm. Thomas of Newton, Iowa, says: "My wife has been seriously affected with a cough for twenty-five years, and this spring more severely than ever before. She had used many remedies without relief, and being urged to try Dr. King's New Discovery, did so with the most gratifying results. The first bottle relieved her very much and the second bottle has absolutely cured her. She has not had so good health for thirty years." Trial bottles free at H. W. Williams & Co.'s drug store. Large size \$1.

It is poor economy to buy cheap food and a greater mistake is made by those who use an inferior brand of baking powder because it is sold for less money. Silver Loaf baking powder is by no means a fancy priced article, yet it is chemically pure and cannot be classed with the inferior grade of baking powders with which the market has been flooded.

## Dog Muzzles.

A large variety at Anderson's gun store.

Bread-makers who have never used Silver Loaf baking powder are requested to give it a trial. It is recommended for its purity and strength and has never yet disappointed the bread-maker.

Bird cages, lunch baskets, croquet sets and macklemay twine at Anderson's gun-store.
